George Huber Do angels exist? Are they not just a pious fiction invented to please children - like Santa Claus? In this era of high technology does it make sense to seek the help of the guardian angels? This book on angels...is not a theoretical treatise; it answers questions people are asking and does so in a very practical way. This book on angels, with an impressive introduction by the late Cardinal Charles Journet, addresses the ordinary person. It is not a theological treatise; it answers questions people are asking and does so in a very practical way, using arguments from authority, the experience of recent Popes, the teaching of Vatican II, the evidence of the Bible and the Liturgy, and the writings of saints and masters of the spiritual life. - L'Osservatore Romano
