Money and Sustainability: The Missing Link Bernard Lietaer, Christian Arnsperger, Sally Goerner, Stefan Brunnhuber

A report from the Club of Rome - EU Chapter to Finance Watch and the World Business Academy.

Foreword by Dennis Meadows, co-author of the 1972 Club of Rome report *The Limits to Growth*.

Pioneering new research from the Club of Rome: In 1972, the first Report for the Club of Rome - *The Limits to Growth* - famously spelled out the unsustainable consequences of an economic system that demands infinite growth in a finite world. Just as *The Limits to Growth* exposed the catastrophic flaws in our economic system, this new Report from the Club of Rome exposes the systemic flaws in our money system and the wrong thinking that underpins it. It describes the ongoing currency and banking crises we must expect if we continue with the current monopoly system - and the vicious impact of these crises on our communities, our society as a whole and our environment. It finishes by setting out clear, practical proposals for creating a money 'ecosystem' with complementary currencies to support and stabilize the current money system.
