After International Relations: Critical Realism and the (Re)Construction of World Politics (Critical Realism: Interventions (Routledge Critical Realism)) Heikki Patomäki

After International Relations articulates a systematic critical realist response to a quest for more emancipatory methodologies in International Relations. Heikki Patomäki here establishes a way out of the international relations problematic which has puzzled so many great thinkers and scholars for the last two hundred years. *After International Relations* shows how and why theories based on the international problematic have failed; articulates an alternative, critical realist research programme; and illustrates how this research programme can be put to work to enable better research and ethico-political practices.
