A beautiful art book presenting the art of Beny Tchaicovsky, a pioneer in 3D computer animation. This hardcover collection explores Tchaikovsky's awardwinning computer graphics as well as his otherworldly, surrealist paintings. Although his life was tragically cut short, one could not ask for a more complete and perfect catalogue raisonné of Tchaicovsky's works than this stunning compilation. Through interviews and tributes in the book, one gains a true sense of the man and his explorations of consciousness. Includes paintings and stills from his CG work, as well as QR-code links to clips of his videos, Beyond Duality is a tribute to an inordinately talented and fecund artist whose work deserves much wider recognition.
