OPEN MINDS AND EVERYDAY REASONING is among the most practically minded critical thinking texts available today. Structured around clear, compelling questions such as, "Do I have an open mind?" "Am I being clear?" and "Is my reasoning good?," this book assists students to analyze the manners of thinking they employ daily. Beginning with a discussion of opening closed minds--indeed a precursor of any rational argumentation--and continuing through coverage of argument construction, critical analysis, and fallacies, the student is prepared to explore "reason in action" in the final part of the book, examining basic inductive reasoning patterns and how to make those "difficult decisions" in life.
