The Rise of Dr. Akitomi Volume One Philo Hunter

Dr. Akitomi has spent his life working for others, but now the mad scientist is branching out on his own. With decades of experience researching the unique biology of the superpowered heroines he's ready to create all of the perverse devices and biological mutations to take them down that he was never able to make while working for others. With ease he is able to set up a secret base in Destiny City where he begins making his anti-heroine weapons. But the very superheroines he is selling arms to fight soon discover his base. The Heroines of Destiny City are young and inexperienced, most having recently graduated from The Academy. Top Heavy, a powerful but inhumanly busty woman, is the first to go try and take the city's new supervillain down. She ends up in trouble she can't handle, and soon finds herself prisoner of the evil Doctor. As he begins using his experimental devices to turn Top Heavy into a loyal slave obedient only to him the rest of the city's superheroines mount a rescue attempt. With a cast of ten superheroines, this 25,000+ word one-handed read contains sexually explicit material and is intended for adult audiences ONLY.
