Interactive Sensing and Decision Making in Social Networks (Foundations and Trends(r) in Signal Processing)

Vikram Krishnamurthy, Omid Namvar Gharehshiran, Mazyar Hamdi

Interactive Sensing and Decision Making in Social Networks (Foundations and Trends(r) in Signal Processing) Vikram Krishnamurthy, Omid Namvar Gharehshiran, Mazyar Hamdi

The proliferation of social media such as real time microblogging and online reputation systems facilitate real time sensing of social patterns and behavior. In the last decade, sensing and decision making in social networks have witnessed significant progress in the electrical engineering, computer science, economics, finance, and sociology research communities. Research in this area involves the interaction of dynamic random graphs, socio-economic analysis, and statistical inference algorithms. Interactive Sensing and Decision Making in Social Networks provides a survey, tutorial development, and discussion of four highly stylized examples of sensing and decision making in social networks: social learning for interactive sensing; tracking the degree distribution of social networks; sensing and information diffusion; and coordination of decision making via game-theoretic learning. Each of the four examples is motivated by practical examples, and comprises of a literature survey together with careful problem formulation and mathematical analysis. Despite being highly stylized, these examples provide a rich variety of models, algorithms and analysis tools that are readily accessible to a signal processing, control/systems theory, and applied mathematics audience.

From reader reviews:

Sonja Johnson:

The book Interactive Sensing and Decision Making in Social Networks (Foundations and Trends(r) in Signal Processing) make one feel enjoy for your spare time. You can use to make your capable a lot more increase. Book can to be your best friend when you getting strain or having big problem together with your subject. If you can make reading through a book Interactive Sensing and Decision Making in Social Networks (Foundations and Trends(r) in Signal Processing) for being your habit, you can get more advantages, like add your capable, increase your knowledge about several or all subjects. You may know everything if you like wide open and read a e-book Interactive Sensing and Decision Making in Social Networks (Foundations and Trends(r) in Signal Processing). Kinds of book are a lot of. It means that, science guide or encyclopedia or others. So , how do you think about this publication?

Mia Shaw:

Book is to be different for each grade. Book for children right up until adult are different content. As you may know that book is very important usually. The book Interactive Sensing and Decision Making in Social Networks (Foundations and Trends(r) in Signal Processing) has been making you to know about other expertise and of course you can take more information. It is rather advantages for you. The publication Interactive Sensing and Decision Making in Social Networks (Foundations and Trends(r) in Signal Processing) is not only giving you a lot more new information but also to get your friend when you experience bored. You can spend your own spend time to read your publication. Try to make relationship together with the book Interactive Sensing and Decision Making in Social Networks (Foundations and Trends(r) in Signal Processing). You never sense lose out for everything when you read some books.

Margaret Honig:

This Interactive Sensing and Decision Making in Social Networks (Foundations and Trends(r) in Signal Processing) tend to be reliable for you who want to be described as a successful person, why. The reason of this Interactive Sensing and Decision Making in Social Networks (Foundations and Trends(r) in Signal Processing) can be one of the great books you must have will be giving you more than just simple reading through food but feed anyone with information that might be will shock your prior knowledge. This book will be handy, you can bring it everywhere you go and whenever your conditions both in e-book and printed versions. Beside that this Interactive Sensing and Decision Making in Social Networks (Foundations and Trends(r) in Signal Processing) giving you an enormous of experience like rich vocabulary, giving you trial run of critical thinking that we understand it useful in your day pastime. So , let's have it and revel in reading.

Paul Lopez:

As we know that book is vital thing to add our expertise for everything. By a guide we can know everything

you want. A book is a pair of written, printed, illustrated or perhaps blank sheet. Every year was exactly added. This reserve Interactive Sensing and Decision Making in Social Networks (Foundations and Trends(r) in Signal Processing) was filled in relation to science. Spend your free time to add your knowledge about your science competence. Some people has several feel when they reading a book. If you know how big benefit from a book, you can feel enjoy to read a guide. In the modern era like currently, many ways to get book that you simply wanted.
