Incompatibilism's Allure: Principle Arguments for Incompatibilism (Critical Issues in Philosophy)

Ishtiyaque Haji

The role of freedom in assigning moral responsibility is one of the deepest problems in metaphysics and moral theory. *Incompatibilism's Allure* provides original analysis of the principal arguments for incompatibilism. Ishtiyaque Haji incisively examines the consequence argument, the direct argument, the deontic argument, the manipulation argument, the impossibility argument and the luck objection. He introduces the most important contemporary discussions in a manner accessible to advanced undergraduates, but also suited to professional philosophers. The result is a unique and compelling account for incompatibilism's continuing allure.
