Italian Small Arms of the First and Second World Wars

Ralph Riccio

Italian Small Arms of the First and Second World Wars Ralph Riccio

This is the first comprehensive work, in either English or Italian, to address Italian small arms used during World War I and World War II. It describes each weapon and covers the developmental history and use of all Italian designed and produced pistols, rifles, submachine guns and machine guns used during both conflicts, as well as prototype weapons and foreign weapons used by the Italians. Other appendices cover bayonets, accoutrements, markings, ammunition, small arms manufacturing facilities, Italian small arms designers, production summaries, and collector's notes. It includes many previously unpublished photographs and background information on small arms producers, ammunition production facilities, and designers. In addition to the new material, it also corrects previously published errors about Italian weapons.
