Life After Coffee Virginia Franken

Last week, high-powered coffee buyer Amy O'Hara was trekking through the Ethiopian cloud forest on the verge of a discovery that could save the coffee bean from extinction. This week, she's unexpectedly fired.

Suddenly Amy's days are no longer filled with meetings and upscale tastings, but with put-together PTA moms, puke-ridden playdates, and dirty dishes. Her husband has locked himself in the garage in order to write the Great American Screenplay, while both kids are steaming mad at her because she insists on dressing them like normal people and won't give up sending them to school with healthy lunches.

It's becoming clear that Amy may just be the world's most incompetent mother, and she's beginning to wonder if the only thing she's good for is bringing home the bacon. When salvation appears in the form of a movie-mogul ex-boyfriend who wants to employ her husband and rekindle their relationship, Amy starts to find she's sorely tempted...

One thing is certain: whatever happens, she's going to need a lot more caffeine.
