What makes this book different? **The Confident Indie** is not different. It is more than different. It's one of a kind.

To begin with, June Walker understands that self-employed people live in a world in which the tax laws and regulations are not written for them. They are written for the 20th Century world of corporations and employees, a world that is waning as the life of the independent contractor grows. The latest IRS figures find that 41 million people are self-employed: That's 29 percent of the workforce. She knows how to interpret those laws and regulations so that the self-employed can use them to their tax advantage, not by creating phony tax shelters but by growing an authentic and vibrant business.

The examples of tax situations that she draws upon don't come out of a manual, they come out of the lives of indies, real situations that she has encountered in her accounting practice - and her writings are chock-full of them.

Furthermore, all the other books on this subject sound alike. You can leaf through them and find the same sentences written over and over again. That's because they are laborious and dull rewrites of IRS manuals. June Walker's book is written by an accountant who, unlike most accountants, knows how to write well, to explain tax matters simply and clearly, and to draw on her thirty-year experience of working exclusively with self-employed people (she calls them indies). It's a career that has developed a thorough understanding of how indies work, how they think, and what their business lives are really like. She admires them, respects their talents, and relates to their issues. That's why her readers relate to her. That's why they respond with such enthusiasm to her books, to her magazine articles, and to her website and blog. That's why thousands of people subscribe to her free e-letter, **Ways Through the Maze**. That's why people who attend her seminars say that they never before understood taxes so easily or heard them explained so well. That's why her readers call her books fresh, unique, irreverently funny.
