Brill's Companion to Statius (Brill's Companions in Classical Studies)

Brill's Companion to Statius is the first companion volume to be published on arguably the most important Roman poet of the Flavian period. Thirty-four newly commissioned chapters from international experts provide a comprehensive overview of recent approaches to Statius, discuss the fundamental issues and themes of his poetry, and suggest new fruitful areas for research. All of his works are considered: the *Thebaid*, his longest extant epic; the *Achilleid*, his unfinished epic; and the *Silvae*, his collected short poetry. Particular themes explored include the social, cultural, and political issues surrounding his poetry; his controversial aesthetic; the influence of his predecessors upon his poetry; and the scholarly and literary reception of his poetry in subsequent ages to the present."
