The Complete Guide to Currency Trading & Investing: How to Earn High Rates of Return Safely and Take Control of Your Investments Jamaine Burrell

In recent years many smart investors have exited the stock market and other investment areas because they have essentially lost control of their investments. They have relied on the advice and skill of their brokers, bankers, and financial advisors. Many investment and retirement accounts have dwindled. Fortunately, there is a wonderful but little-understood alternative: currency trading and investing. As with many other business segments, the Internet and technology have opened up this attractive marketplace to a new breed of individual investors and speculators working part-time. You and I can now stand on an even playing field with the largest banks and trading institutions from the comfort of home. Currency trading is the practice of exchanging one country's currency for another country's currency. The foreign exchange (Currency or Forex or FX) market is the largest trading market in the world exceeding \$1.9 trillion every single day! Essentially there are four variables involved: currencies, exchange rate, time, and interest rate. The relationships of these variables create opportunities for small investors to obtain investment returns that are generally unheard of in the traditional investment world. You owe it to yourself and your family to begin to learn about currency trading. You can get started with just \$100 or less, and the investment can easily be managed in a part-time capacity, usually requiring a few hours on the Internet a week from your home or your office. Currency investments can provide you with very high and secure rate of return, in some cases as high as 12%, 18%, 24%, or even 1,000% or more per year. If performed correctly, currency trading will far outpace all other investments. The key is to know how to perform this process correctly. This all sounds great, but what is the catch? There really is none, except you must know what you are doing! This groundbreaking and exhaustively researched new book will provide everything you need to know to get you started generating high-investment returns with low risk from start to finish, and you can start with less than \$100. You will learn what currency trading is; how to invest in foreign currency; trading strategies and tactics; technological considerations; how to set up your account online; purchase currency online; day trader insights; current trends; Pivot Programs; price projectors; futures predicting; trading software; insider secrets to help you double or even triple your investment all while avoiding traps and pitfalls. If you are interested in learning hundreds of hints, tricks, and secrets on how to earn enormous profits in currency trading while controlling your investments, then this book is for you.
