Apologia's award-winning chemistry course is now better than ever! *Exploring Creation with Chemistry, 3rd Edition* provides a rigorous foundation in chemistry in order to prepare your student for college-level studies. Students taking this course should be proficient at an algebra math level. Topics include significant figures, units, classification, the mole concept, stoichiometry, thermochemistry, thermodynamics, kinetics, acids and bases, redox reactions, solutions, atomic structure, Lewis structures, molecular geometry, gas laws, and equilibrium. This revised edition offers more in-depth discussions and explanations of concepts, as well as biographical sketches of scientists who've made a difference in the field while giving the glory to God and pointing to Him as Creator. Experiments include measuring specific heat, discovering the electrical conductivity of compounds dissolved in water, measuring the width of a molecule, exploring freezing point depression, using the ideal gas equation, recognizing the effects of catalysts, and much more. NOTE: *This product is the textbook only of a two-volume set. A solutions and test manual is also needed in companion with the textbook.*
