THE NEXT STAGE IN HUMAN EVOLUTION IS ALMOST HERE... BUT WILL HOMO SAPIENS SURVIVE?

READ PERFECTIBLE ANIMALS TO FIND OUT.

It's 2065. Environmental and social chaos are poised to disrupt all life on Earth.

Michael Khan, a geneticist struggling to save his wife from a deadly virus, is recruited by a secret organization to engineer the next stage in the evolution of Homo sapiens: highly immune to disease and extremely cooperative.

When the military learns of his research, they force him to help create a bio-weapon to be used against invading forces.

Desperate to save humanity before they wipe themselves out, Michael genetically modifies over one hundred children. Ironically, they start to breed diseases that are deadly to Homo sapiens, and he is arrested for bio-terrorism.

Now, Michael isn't only fighting for the life of his wife, but for himself, his modified children, and millions of civilians about to be wiped out by diseases he is responsible for creating.

The problem is -- he can't save them all.
