Robot Technology (New Technology) Ian Graham

Robot Technology looks at robots that are used in space exploration, and developments that may happen in the future, for example, landing on Mars. It looks at robot explorers that go to places humans cannot reach, such as the sea bed, and into the craters of volcanoes. The title explores military machines, and discusses the possibility of humanoid robots. It also asks important questions about whether advances in robot technology could threaten humans. *New Technology* is an exciting, up-to-date look at new technology and the effect it is having on the world. Each title looks forward to likely future technological advances that will affect our everyday lives.
