Strong Interactions in Spacelike and Timelike Domains: Dispersive Approach Alexander V. Nesterenko

Strong Interactions in Spacelike and Timelike Domains: Dispersive Approach provides the theoretical basis for the description of the strong interactions in the spacelike and timelike domains. The book primarily focuses on the hadronic vacuum polarization function, R-ratio of electron-positron annihilation into hadrons, and the Adler function, which govern a variety of the strong interaction processes at various energy scales. Specifically, the book presents the essentials of the dispersion relations for these functions, recaps their perturbative calculation, and delineates the dispersively improved perturbation theory. The book also elucidates the peculiarities of the continuation of the spacelike perturbative results into the timelike domain, which is indispensable for the studies of electron-positron annihilation into hadrons and the related processes.

- Covers the topics that play an essential role in contemporary particle physics and future collider projects
- Applicable for self-education alongside standard textbooks
- Makes the subject easily accessible without the need of an extensive theoretical background

From reader reviews:

Herbert Haubrich:

Book is to be different for every single grade. Book for children until adult are different content. To be sure that book is very important normally. The book Strong Interactions in Spacelike and Timelike Domains: Dispersive Approach had been making you to know about other knowledge and of course you can take more information. It is quite advantages for you. The book Strong Interactions in Spacelike and Timelike Domains: Dispersive Approach is not only giving you considerably more new information but also to be your friend when you sense bored. You can spend your own personal spend time to read your publication. Try to make relationship while using book Strong Interactions in Spacelike and Timelike Domains: Dispersive Approach. You never experience lose out for everything if you read some books.

Dustin Broach:

This Strong Interactions in Spacelike and Timelike Domains: Dispersive Approach is great guide for you because the content which can be full of information for you who else always deal with world and still have to make decision every minute. That book reveal it facts accurately using great plan word or we can state no rambling sentences inside it. So if you are read the item hurriedly you can have whole details in it. Doesn't mean it only provides straight forward sentences but difficult core information with splendid delivering sentences. Having Strong Interactions in Spacelike and Timelike Domains: Dispersive Approach in your hand like keeping the world in your arm, data in it is not ridiculous 1. We can say that no guide that offer you world inside ten or fifteen small right but this guide already do that. So , this really is good reading book. Hi Mr. and Mrs. hectic do you still doubt this?

Michael Martin:

You are able to spend your free time to learn this book this reserve. This Strong Interactions in Spacelike and Timelike Domains: Dispersive Approach is simple to create you can read it in the recreation area, in the beach, train as well as soon. If you did not have got much space to bring often the printed book, you can buy the particular e-book. It is make you quicker to read it. You can save the particular book in your smart phone. Therefore there are a lot of benefits that you will get when one buys this book.

Melissa Broussard:

Reading a guide make you to get more knowledge from that. You can take knowledge and information from your book. Book is prepared or printed or illustrated from each source which filled update of news. On this modern era like right now, many ways to get information are available for an individual. From media social including newspaper, magazines, science publication, encyclopedia, reference book, story and comic. You can add your knowledge by that book. Are you ready to spend your spare time to open your book? Or just seeking the Strong Interactions in Spacelike and Timelike Domains: Dispersive Approach when you required it?
