A noted parenting expert provides the latest research on child development and offers games and activities parents can use to support their child's natural abilities.

Drawing on the latest fascinating research in child brain development, noted parenting expert Jan Faull gives parents the essential tools to recognize and encourage their child's natural development- and have fun with their kids in the process. Simple to use and easy to understand, the techniques in *Amazing Minds* show parents how to support their children's capacity for learning. Faull describes chronologically what babies are capable of and the research behind those findings-then provides clear instruction, practical exercises, and fun games to play with babies to enhance their innate learning process. *Amazing Minds* will change how people view babies-from newborns to toddlers- and foster a new level of nurturing for generations of parents, educators, and caregivers.
