Charlie and Josh's interests were the same as most other teenagers: drinking, parties and girls. That was until the day they discovered the Time Bubble. It starts at a bit of fun, jumping a few seconds into the future. Soon things take a more serious turn as the leaps in time increase in duration. When a teenage girl goes missing, and the police become involved, suspicion falls on Charlie. How can he explain where she is? Will anyone believe him? As the long term dangers of the Bubble become clear, one man comes up with a solution – one that could hold the key to his own salvation. Set in a small market town in Southern England in the early 21st century, this light-hearted time travel novel has plenty to delight readers of all ages. This novel is the first part of a trilogy which continues with *Global Cooling* and concludes with *Man Out Of Time*.
