**Millennials vs. Boomers: Listen, Learn, and Succeed Together** Eric Harvey, Silvana Clark

*Millennials vs. Boomers* is a title created to promote positive understanding between the generations that are currently leading our workforce. Millennials are searching to understand the business leaders who have experience in the field and have created best business practices. Boomers are searching to understand the young workforce who are shaking up the field with a new perspective, scope, and business practices. Both are searching to be understood for who they are in the field.

On the grander scale, this is more than just a trending topic. These are two very distinct cultures that are asked to seamlessly interact within our workforce. Both simply wish to be understood, accepted, and appreciated for their contributions and unique view points of the current work environment. Which in and of itself, can be an ever changing and terrifying place with all the restructuring, downsizing, and layoffs we continue to witness in today's market.

But in such an adversarial environment, we need teamwork and understanding. Frustration and lack of understanding quickly causes a lack of communication and, without proper communication, your entire work structure breaks down.

Organized as a flip book from the alternating perspectives of millennials and boomers, and peppered with narration, quotes, and statistics, this title is meant to ensure that communication is bridged in a positive and empowering way for both groups. Written by a millennial and boomer duo (Eric Harvey and Silvana Clark) it is the perfect piece to launch understanding and conversation between business teams.
